

INSY7311 Assignment 2 Check List:

1. Feedback Implementation

- a. Short explanation of the feedback received for Assignment 1
- b. Explain the changes made

2. Expand prototype and design principles

- a. Choose and name 5 NEW principles (*FROM LU6: PM6,7,8,9,10*):
- b. For each:
 - i. Name the principle
 - ii. Explain the principle (I would name one and explain and relate to a second as well) *For example: Visual Hierarchy & Scale*
 - iii. Expand on design/detail of low-fidelity prototype (no login and register screens)
 - iv. Explain the prototype (related to the principle)

3. Evaluation plan

- a. Choose at least 1 aspect to evaluate
- b. Explain the plan (steps: WHAT, WHICH, TYPE, WHEN, WHERE, WHY)
- c. Relate and reference to theory in LU7: Chapter 14

4. Methods

- a. At least 2 methods identified from evaluation plan
- b. For each:
 - i. Name the method
 - ii. Explain the method
 - iii. Motivate the method
 - iv. How will it be implemented

5. Full reference list – do not forget in text references throughout

HAND IN MUST BE 2 PDF DOCUMENTS – NO ZIP FILES.

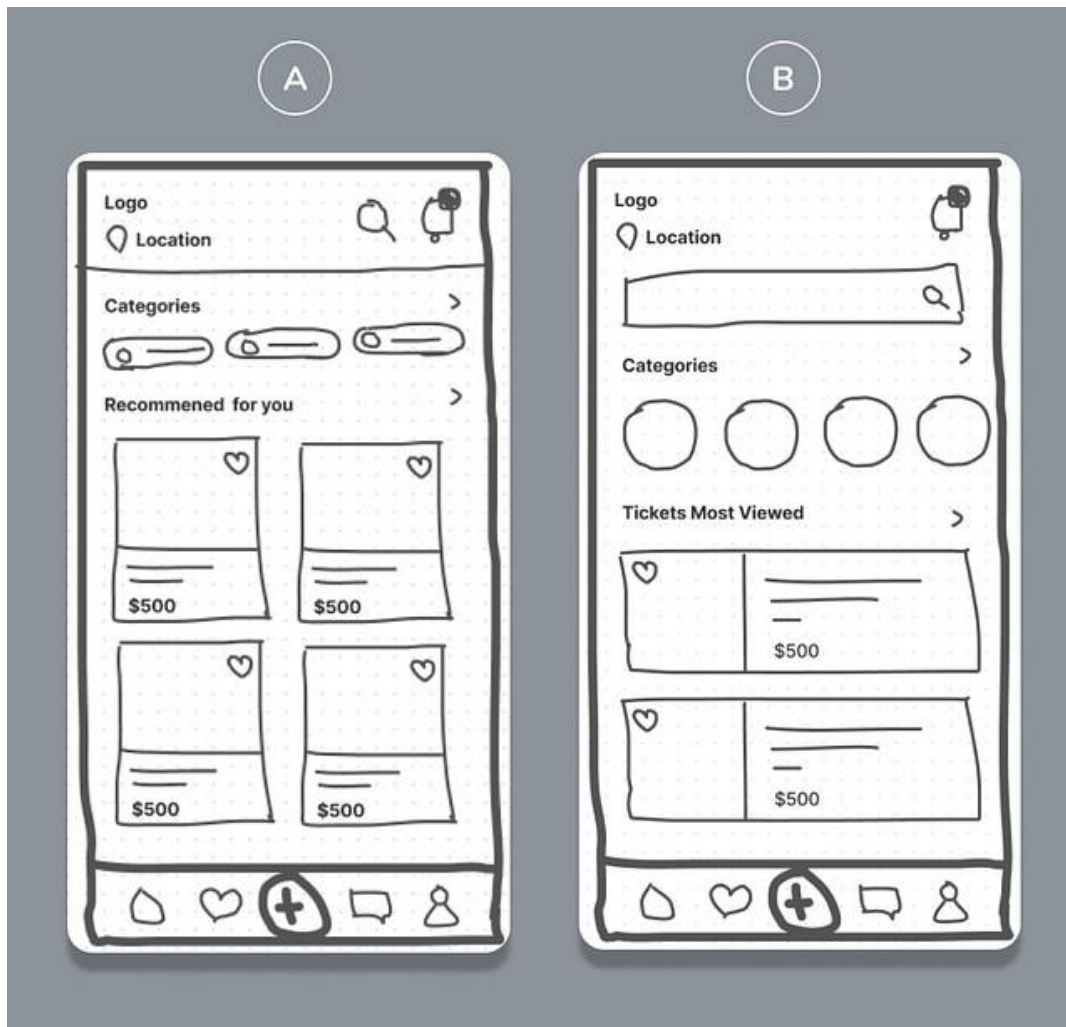

Tools that can be used to create low-fidelity prototype:

<https://mockflow.com/>

<https://excalidraw.com/>

<https://www.figma.com/>

Example of what the low-fidelity prototype should look like detail wise (Assignment 1):

Change from this to (see next page)

**Examples of what the low-fidelity prototype should look like detail wise
(Assignment 2):**

- Still low fidelity, no colour, no images
- Just with more detail
